- 03** further yourself above
- 04** reborn in you
- 05** Be clear & concise
- 06** building networks
- 07** strive for excellence
- 08** The entrepreneur

BAPTISE TO GOVERN & RULE

Refreshing it is to be born again in a baptismal fire, shedding all old financial philosophies and attaching new financial outlook, destined to effect change in any economy.

The entrepreneur now protected by the fire of destiny, to now overlook all past indecency of irregularities set forth by former mentors, families, friends and associates and become the one to rebuild what was once lost.

FURTHER YOURSELF ABOVE

The creation to further your inhibitions and channel them into workable goals, cap on new frontiers to build what was once your dream into a reality.

A conqueror claiming new territories by negotiating the awareness approach of what can be seen and what is not happening now.

To proclaim through communication the feats which would be necessary for this change.

THE OLD WILL DIE OFF

As the world continues to spin out of control by the old industrial mandates and financial philosophies, is predating the total destruction of the human species.

A species once destroyed cannot manifest itself into its strongest responsibility of building, rebuilding and structuralism.

Foundation responsibility rests on those hallmark decision to continue building, continue reaching to all its height of possibilities for the sake of an immortal race

REBORN IN YOU

Without these manifestation then there can be no use for the financial institutions to reward anyone with their gracious figure of quants. Its purpose designed to extinguish the hatred set forth by our ego to devour competitions or to build our dreams into a relative state of potentiality.

A recognition that a reborn entrepreneur is not to only preach financial gospel or to gossip about the experience of baptismal.

BUILDING NETWORKS

But to beat the truth about deceptive formulas and predictive analysis on economies from hoarding and pilfering.

Now a powerful product, the aims are clear and destined to erupt the normal social space and to find its weakness, thus exploiting it by required funding to build a customer base huge enough to satisfy those weaknesses into a strength.

Further moving on to other local or distributive smaller economies doing the same aforementioned behaviors to further the investment goals of productivity.

For how long it shall last is a question not in favor to reply but deterrence is part of indecisiveness.

BE CLEAR & CONCISE

It is part of investor premise and projection but the time spent and rewarded to new customers would worth the gospel truth of deliverance, as an appointed giver of wants is here to satisfy the human further evolution.

A clear and concise judgment of planning and co-ordination yields exact results as training for those unprecedented times of decline is the real said reason for performing a baptismal.

Do not be the next charlatan conman doing the opposite of what was taught.

Remember to be reborn is to be a new product original in practice and principles.

To displace old economies and to distribute the money supply so much that it forces others to be on guard continuously in fear of up-taking market shares and customer loyalty.

STRIVE FOR EXCELLENCE

Chosen to be unique already gifted in innovation and growth is one cheek away from an exuberated punch to the face of a reality of outreach program and takers rather than receivers, just ready to feed you to the wolves once an opportunity strike.

THE ENTREPRENEUR

Objectivity is clear to distributive money supply and to proclaim to be the almighty savior dumping investor into stakes which shows uncertainty and death.

The entrepreneur must be a builder of a new economic destiny and to the others would be so perplexed that you would miss the objective.

For the financial world is huge with many actors; so focus on the real issue of reborn. Maximize the efforts of challenging the old economies and all its cohorts. Be the different angle away from the 3600 cycle business which would come hard with the impressive charts and figures.

The fire would extinguish if not pushed hard enough to keep it alight. The only way it stays lit is by forcing challenges onto economies, disturbing their status causes and principles of living comfortably in a linear economy.
